The Secret Laboratory

Notebooks and Narratives

Date: 4 Feb - 28 Mar

The Secret Laboratory reveals the hidden world of the architect’s sketchbook. Shown for the first time together as a selection of local, national and international architects from both Northern Ireland and Ireland, together they show the quality of ideas, observations, thoughts and reflections that are often concealed in a drawer in the studio, a coat pocket or in the individual imagination of the architect.

In our digital age the drawing and the sketch still have their value as being fundamental to artistic, theoretical and architectural practice. We are familiar with the practice of the sketchbook as used by architects on the ‘Grand Tour’ - to record their journey - but what of the everyday observations, of things half seen, imagined and remembered, that inspire architects and in turn are captured in their notebooks?

What ideas do we carry with us while we are creating our work? How do we use the ‘device’ of the personal sketchbook/notebook? How has its use changed with time and the digital age?

Revealed now in The Secret Laboratory: a series of private reflections made public. The architects whose work is featured range from practitioners to writers, lecturers, critics and artists.

Curator Paul Clarke is a writer, lecturer and architect based in the School of Architecture and Design at the University Of Ulster in Belfast where he is course director for the Master of Architecture programme. He has written for various architectural magazines and has collaborated on books on the work of Charles Rennie Mackintosh. This exhibition is curated as part of a wider research project.

The Secret Laboratory is a joint exhibition between PLACE and the University of Ulster, co-designed and built by Niall O’Hare

Events

Late Night Art

Date: Thurs 4th Feb
Thurs 5th Mar

A chance to see the current exhibition until 9pm.

Lives and Spaces Symposium

Date: Fri 26 Mar

PLACE and OBG present a major symposium: Lives and Spaces: Art, Architecture and the Public.

The symposium coincides with the Lives of Spaces exhibition (Ireland’s entry to the 11th Architecture Biennale in Venice) at Ormeau Baths Gallery and will look at the intersections between art, architecture and curating in the public realm, through exhibitions, public art and the built environment.

A range of speakers from backgrounds in art, architecture, curating and commissioning will come together to address overlapping issues facing these professions. The symposium aims to initiate dialogues to better support healthy collaboration and communication between these areas.

Admittance

Charge: £5

To register your interest please contact OBG on:

weePLACE

Date: 4 Feb - 28 Mar
Time: 5.30pm

John Pickaar is a maker of fine bespoke furniture. His walnut cabinet which won 1st prize at the 2003 RDS National Craft Competition was inspired by a piece of Japanese architecture and is on display in weePLACE.

“The clean Modernist lines of the building formed the basis of my idea. Constructing the walnut ‘barrel’ using a traditional coopering technique allowed me to incorporate wood working proficiency in a contemporary way.”

Participating architects

Grafton Architects
O’Donnell + Tuomey
Tom De Poer
Shane O’Toole
Peter Cody
Ciaran MacKeckne
Tarla MacGabhann
Paul Clarke
Nigel Murray
