Conference: Creative Industries Innovation
2nd March 2011, 9am - 4pm
SARC, Malone Road, Belfast

The final conference in our Creativity & Innovation series is free for all. Limited places available - book today at www.placenit.org

With speakers from architecture, sustainable design, music, art and more - we look at the broader picture of the creative industries in Northern Ireland, and their impact on the wider stage. We explore the imaginative work of businesses and individuals active in NI, the crossovers between the different creative industries, the knock-on effects for other industries, and what can be done to foster a culture of creative work in Northern Ireland. With added context from the international scene and innovative responses to changing media and the economic situation.
