Re manuscript: MARGO5797R1.
Title: Late Quaternary evolution and sea-level history of a glaciated marine embayment, Bantry Bay, SW Ireland.
Authors: Ruth Plets; S. Louise Callard; J. Andrew G Cooper; Antony J Long; Rory J Quinn; Daniel F Belknap; Robin J Edwards; Derek W Jackson; Joseph T Kelley; David Long; Glenn A Milne; Xavier Monteys.
Corresponding author: Dr. Ruth Plets.

Dear Dr. Plets,

I am pleased to inform you that your manuscript has been accepted for publication.

Your accepted manuscript will now be transferred to our production department and work will begin on creation of the proof. If we need any additional information to create the proof, we will let you know. If not, you will be contacted again in the next few days with a request to approve the proof and to complete a number of online forms that are required for publication.

I would also like to let you know that Elsevier makes your accepted manuscript available electronically within five days to people and institutions that subscribe to this journal through Science Direct. The manuscript will be assigned a DOI (Digital Object Identifier) number that is unique for your article and will not change during the production process or thereafter. It is also searchable by title, author name and full text. As your paper proceeds through the production process, its status will change from Accepted Manuscript to an Article in Press, and then it will be published. All subscribers to MARGO through Science Direct can access every accepted manuscript within days of their acceptance. This feature ensures that your accepted paper is in the scientific literature within the shortest possible time frame.

When your paper is published on ScienceDirect, you want to make sure it gets the attention it deserves. To help you get your message across, Elsevier has developed a new, free service called AudioSlides: brief, webcast-style presentations that are shown (publicly available) next to your published article. This format gives you the opportunity to explain your research in your own words and attract interest. You will receive an invitation email to create an AudioSlides presentation shortly. For more information and examples, please visit http://www.elsevier.com/audioslides.

Thank you for considering our journal for the publication of your research.

Kind regards,

Janani

Comments from the Editors and Reviewers:

Dear Dr. Plets,
Thank you for your revision, which has sufficiently dealt with the issues raised by the reviewers. Your paper is now accepted for Marine Geology.

Thank you for choosing our journal for your work.

Kind regards,
Michele Rebesco
Editor in chief
Marine Geology

PS: We encourage you to keep your personal details accurate and, to assist the editors in identifying suitable referees, it is now possible to express your fields of expertise by selecting classifications. To do either, please log in and click "change details". You can check that your contact details are up-to-date and select suitable Personal Classifications from the list. Finally, we also encourage you to update your details to indicate that you are 'Available as a Reviewer'.
