A video / audio artwork stemming from the STILL NOT OUT OF THE WOODS umbrella of research. Here a new song STILL NOT OUT OF THE WOODS is recorded live along with experimental audio and video and footage developed of a temporary intervention of the STILL NOT OUT OF THE WOODS
phrase. This text work was constructed from tree twigs and suspended around the town and surrounding landscape of Chateau Gontier as part of the Gothic Cinema programme. STILL NOT OUT THE WOODS makes oblique references to many things but in this location it very much connected to the landscapes and geo-political dynamics and legacies of WW1 and WW2.
